Use this link to access My SchoolWorx™, our online grading, classroom and school management system. Parents and students can access their dashboards independently.

A screenshot of the My SchoolWorx login interface. At the top left is the My SchoolWorx logo. Below it is a 'Login' section with a light gray header. The form contains two input fields: 'E-mail:' and 'Password:'. Below the password field is a 'Remember me' checkbox and a 'Lost password' link. At the bottom of the form is a blue 'Submit' button.

Parents and students have their own log-ins. The emails used to create your accounts will be the ones provided to the school for each parent and the student. Each parent should have his/her own account for alerts, notifications and access of information.

**Password:** For returning students and parents, you created your own password, so whatever you entered last year will work this year. If you don't remember your password, please reach out to [Tami@scoreatthetop.com](mailto:Tami@scoreatthetop.com) and she will be able to reset your password for you.

For those of you who are new to Score Academy, the password for parents is scoreparent@1 and the password for students is scorestudent@1. Once you put that in as your initial password, it should then prompt you to pick a password of your own.

Please refer to the *Guide for Students and Parents* for more information and details about My SchoolWorx™.
